SUMMARY

Aspiring Data Analyst with a strong foundation in Python and Natural Language Processing (NLP), currently enhancing skills in SQL, Excel, and Power BI for effective data analysis and visualization. Quick to adapt and thrive in collaborative environments, seeking an internship or entry-level role to contribute to impactful projects while continuously developing technical expertise and problem-solving capabilities.

EDUCATION

B.Tech Computer Science & Business Systems	Nov 2022 - Present
Akshaya College of Engineering and Technology, 7.5 CGPA	
Higher Secondary School Certificate	May 2022
Annai Matriculation Higher Secondary School, 76%	Mar 2020
Secondary School Leaving Certificate	
Annai Matriculation Higher Secondary School, 94%	

WORK EXPERIENCE

Xplore IT Corp	June 2025 - July 2025
Data Analyst Intern	
- Gained hands-on experience in data analytics and visualization. - Skilled in Power BI, Tableau, MySQL, and Excel for data analysis. - Applied data-driven insights to solve real-world business problems.	

PROJECTS

Speech Therapy Clinical Services	Nov 2024
Technologies: Python	
- Designed and developed a Python-based Speech-therapy-clinical-services. - Implemented real-time speech services with ISL GIFs and letter-based sign representations.	
Multilingual Scam SMS & Call Detection with Awareness Support using NLP and Machine Learning	Present
Technologies: NLP, Machine Learning, Python, Flask, SQLite, Speech-to-Text (Whisper)	
- Developed a machine learning-based system to analyze SMS messages and call transcripts to detect fraudulent and scam content. - Implemented a Flask-based backend integrated with a web interface to provide real-time scam detection and user interaction. - Enhanced detection accuracy using NLP techniques such as TF-IDF, Naïve Bayes classification, multilingual processing, and malicious keyword & URL analysis, along with an awareness module for user education.	

SKILLS

Programming Languages: HTML, CSS, JavaScript, Python
Design Tools: Canva
Developer Tools: VS Code
Deployment Tools: GitHub
Data Analysis Tools: Power BI, Tableau, MySQL, Excel
